

Number of Shared Genes
Restricting to Protein Coding Genes with Mean UMIs > 0
19,723 union genes, 9,147 genes shared among all datasets

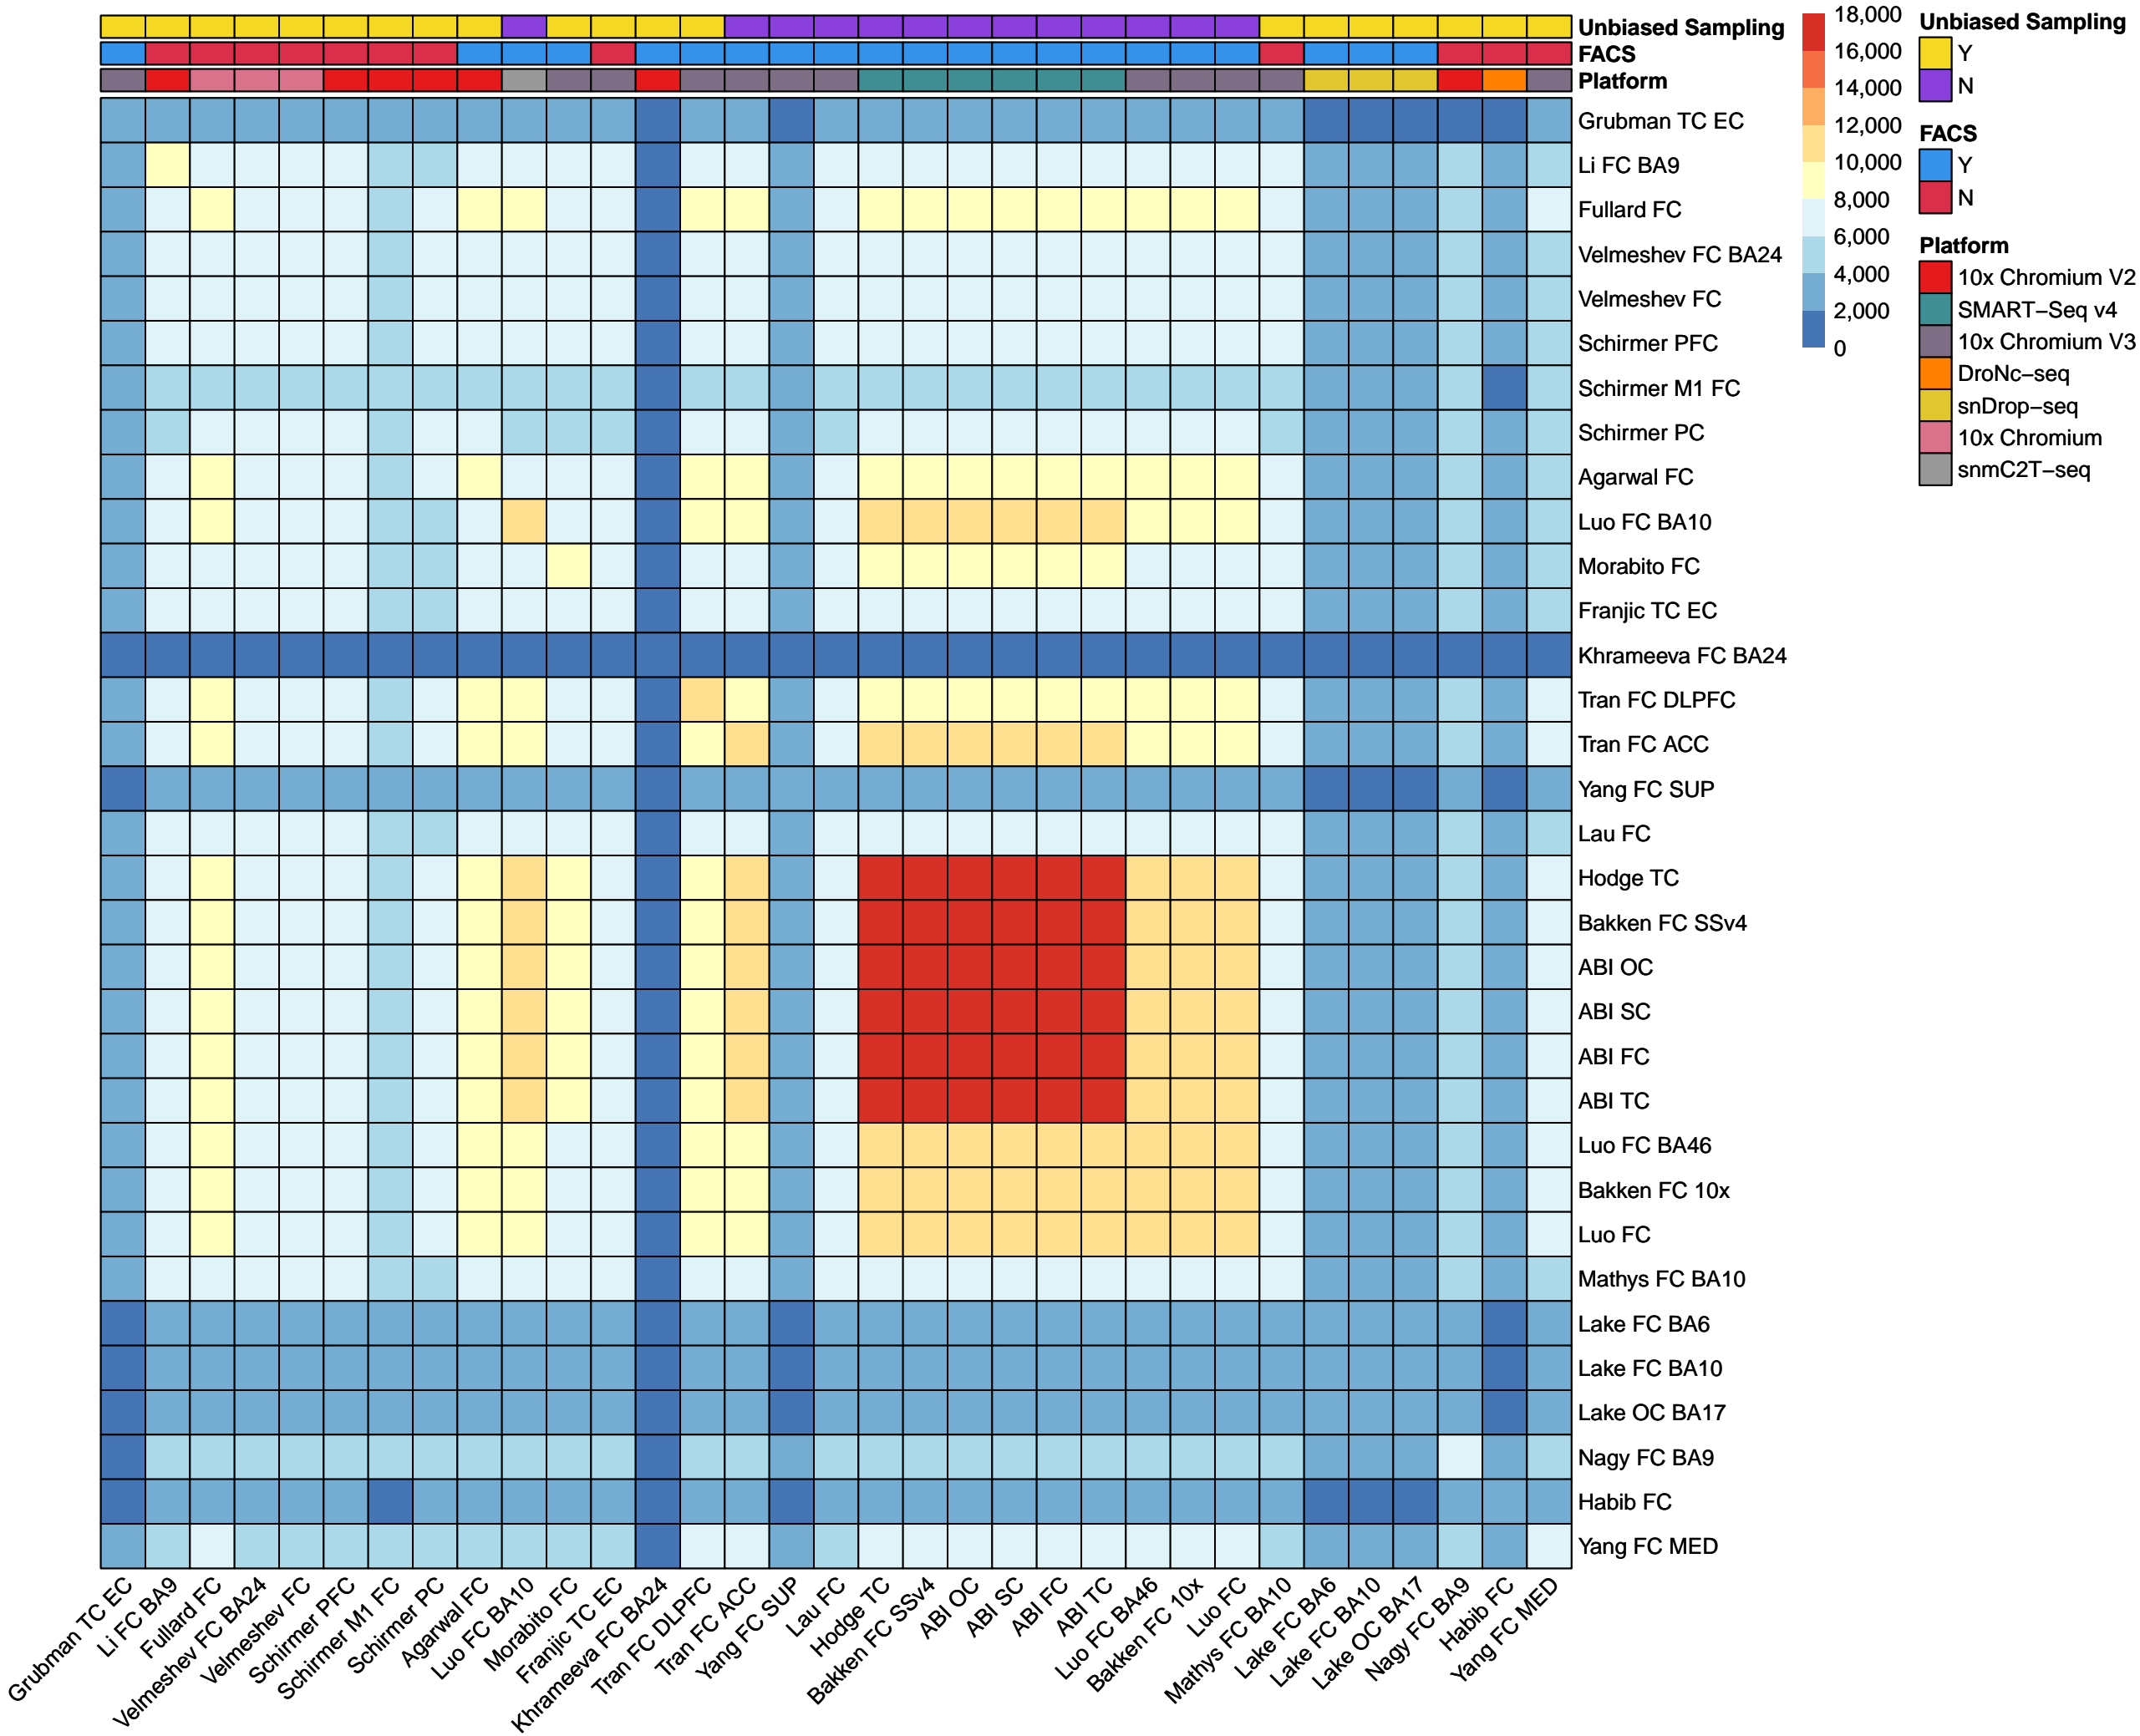

Number of Shared Genes
Restricting to Protein Coding Genes with Mean UMIs >= 0.0005
19,507 union genes, 8,549 genes shared among all datasets

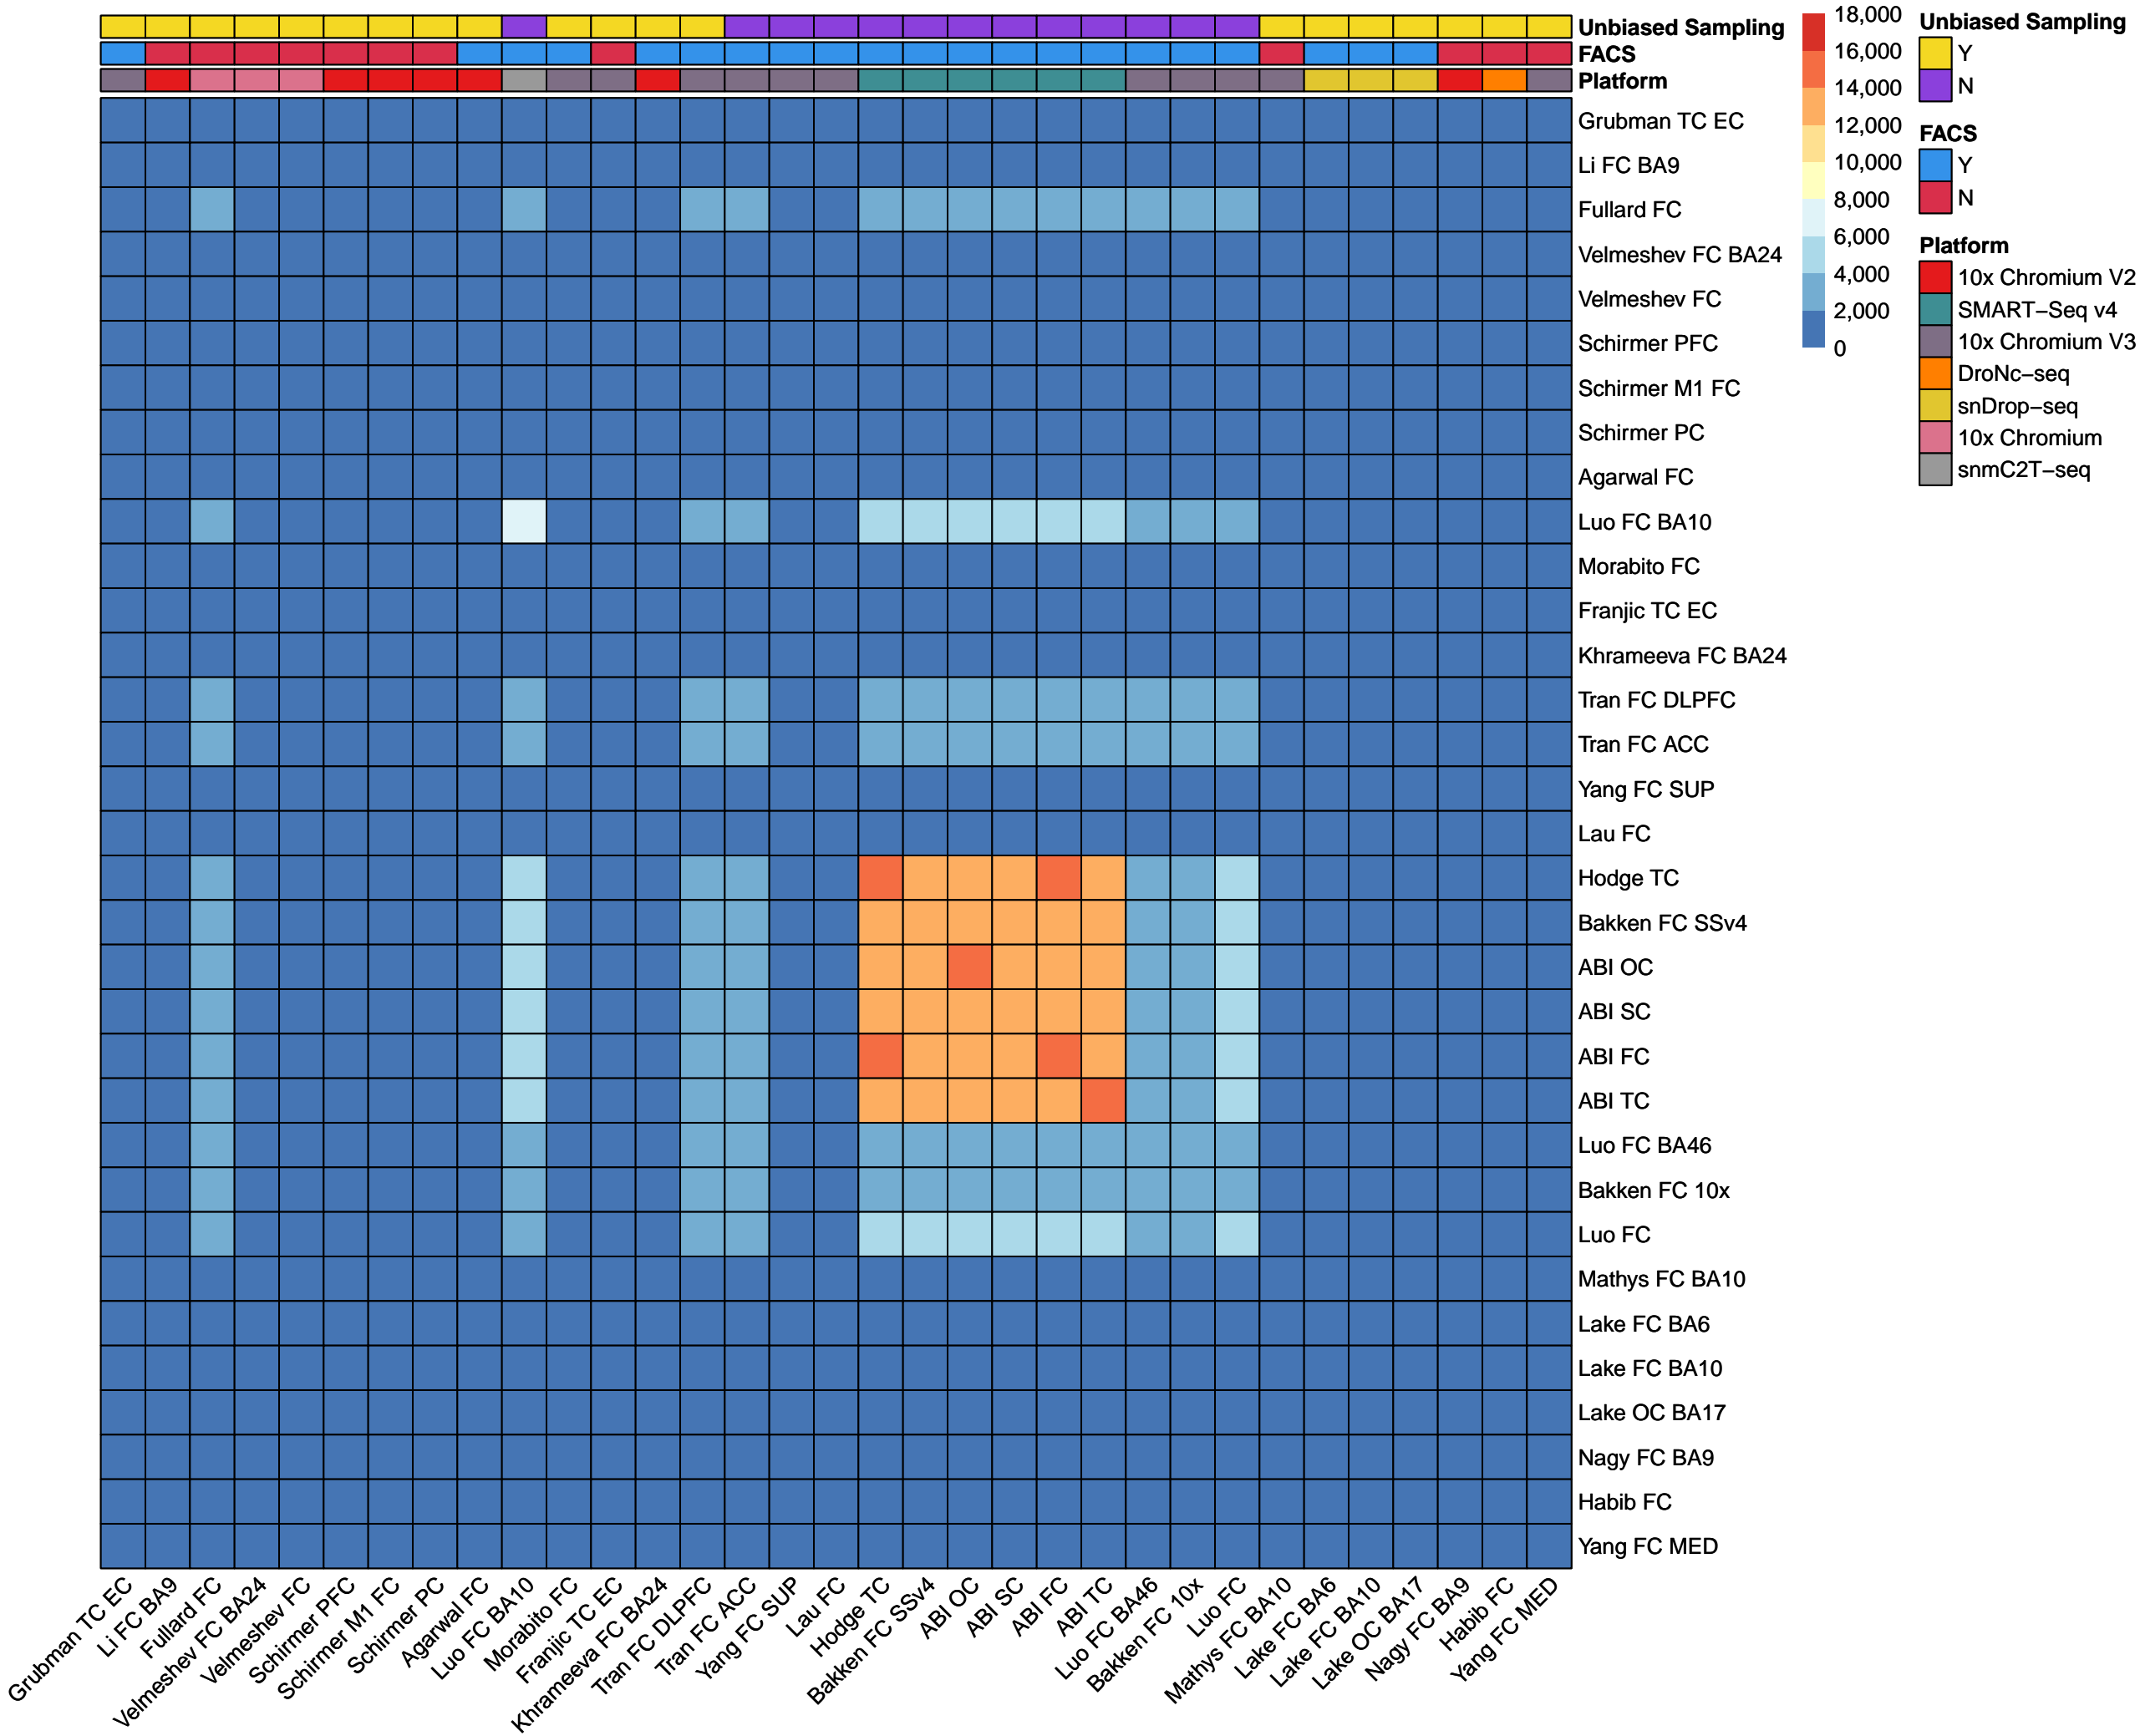

Number of Shared Genes
Restricting to Protein Coding Genes with Mean UMIs >= 0.01
18,849 union genes, 6,009 genes shared among all datasets

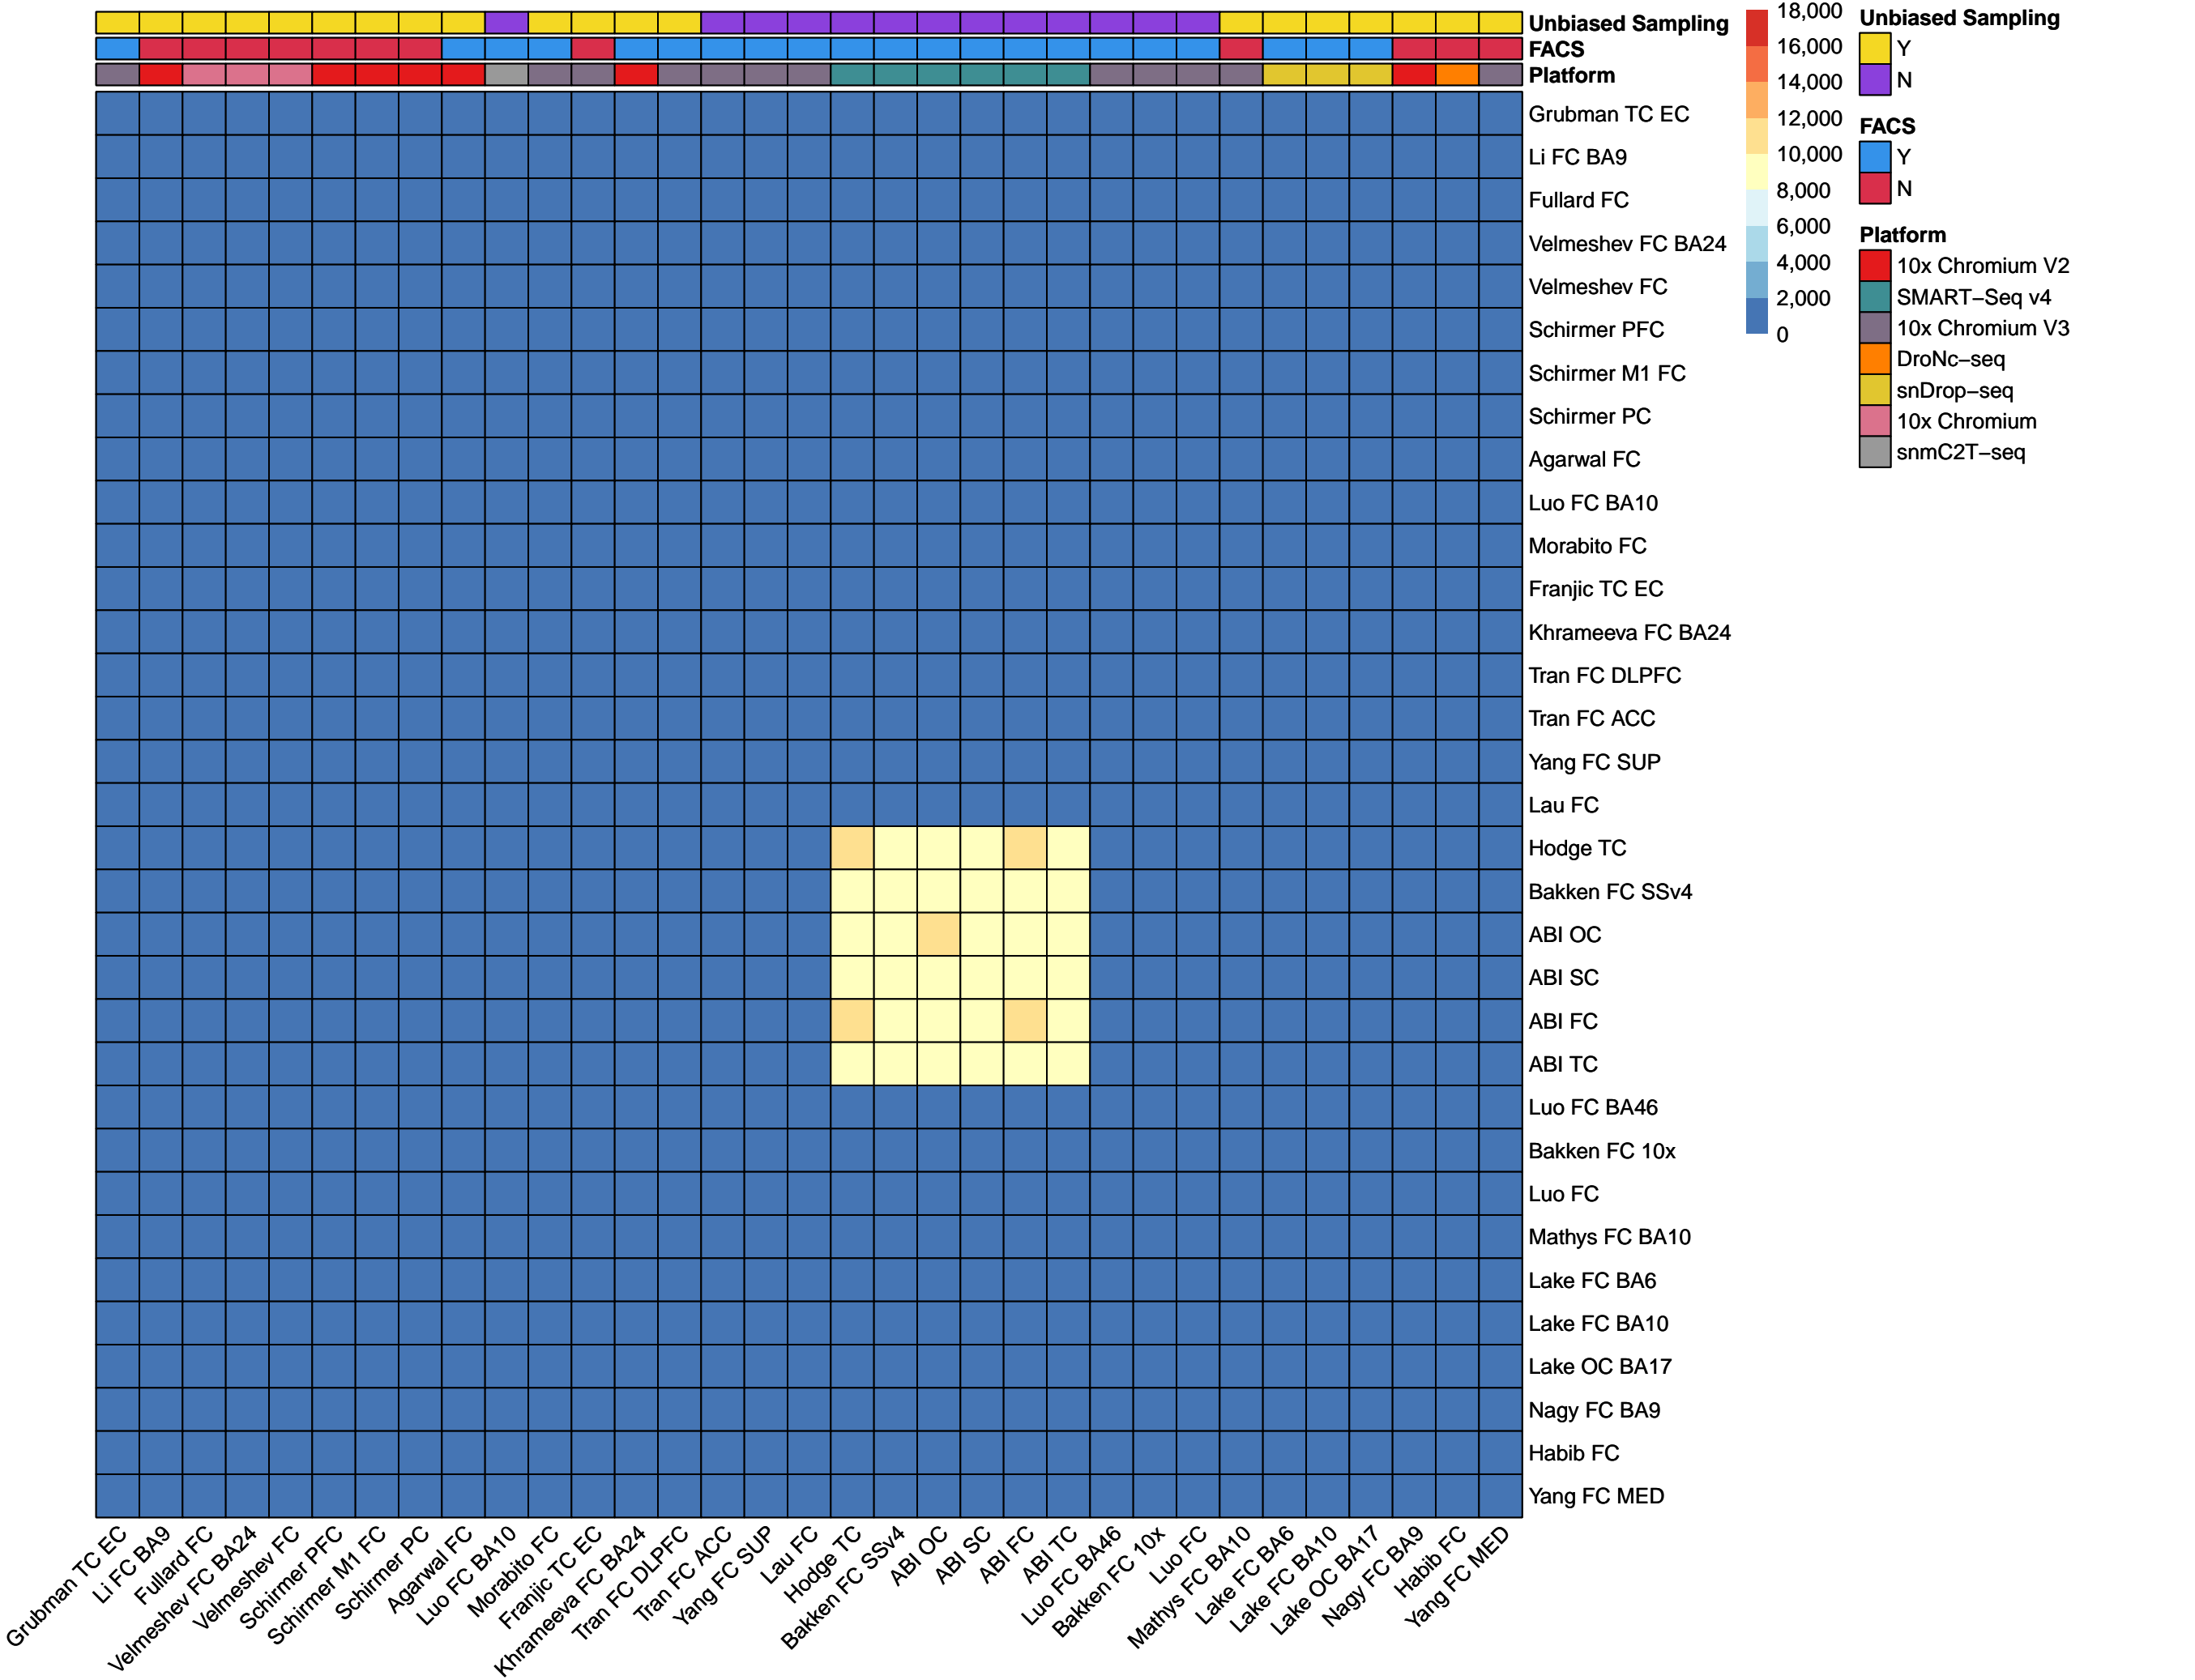

Number of Shared Genes
Restricting to Protein Coding Genes with Mean UMIs >= 0.1
17,551 union genes, 364 genes shared among all datasets

Number of Shared Genes
Restricting to Protein Coding Genes with Mean UMIs >= 1
15,102 union genes, 0 genes shared among all datasets

Number of Shared Genes
Restricting to Protein Coding Genes with Mean UMIs >= 10
11,120 union genes, 0 genes shared among all datasets

Number of Shared Genes
Restricting to Protein Coding Genes with Mean UMIs >= 500
586 union genes, 0 genes shared among all datasets
